Organic News Blip #29

HAPPY HOLIDAYS!

TODAY'S REALLY BIG NEWS:

1 – OASIS – finally, The American Organic Production Standard.

2 – Oh, Oh is GROWING! Welcome to Nicole.

3 – New Prices, New Products – please let me know if you want the new list!

1 – OASIS – The American Organic Production Certification Standard.

OASIS stands for: **Organic And Sustainable Industry Standards** and was formed as a Non-profit Trade Association. OASIS wants you to join! The mission of the organization:

OASIS is dedicated to providing verifiable standards that support and promote organic and sustainable production for the Health and Beauty Industry, utilizing principles of incremental improvement and continuous change. The OASIS seal provides assurance to the consumer of credible value for organic and sustainable claims on OASIS products.

A power point presentation that explains the membership and benefits of OASIS is available on request. The first Standard is for the production of organic Health & Beauty Products. The next should be the household products Standard and then OASIS plans to have a standard for sustainable packaging. OASIS is open to new members and will start offering the certification in January.
